Subject: Themes

Hello,

I really liked the themes in the appendices. I hope that teacher training will allow enough time to look at them in depth so that teachers can really understand the purpose and importance of specifically teaching integrating History and Social Studies standards in the curriculum.

I would also like to add an addendum to the teaching resources: Particularly for K thru 3rd grades, there must online links to information in the local regions. Those links need to be updated and monitored so that teachers can use them efficiently.

Thanks.

Corby Arthur
